

Camilla Ghione unique fashion accessories.

She dreamed it, she did it: Camilla Ghione has combined her passion for art and fashion. She makes her art works into foulards and scarves, accessories that all Monaco dreams to wear.

As she intertwines her initials in the logo of her young brand, Camilla mixes her art with the creation of unique fashion pieces: very high-end scarves, squares of 90 or 140cm with abstract patterns. Pleasant to wear in all seasons, they are made of silk, cashmere or modal and soon 100% cashmere. At the base of her creations, there are paintings, modern

and more or less figurative, that the artist creates using resin but she also creates more realistic works made with oil or acrylic paint. "This work between art and fashion passionates me and the achievements that comes out of this work allows me to offer unique and elegant accessories that in my opinion, were lacking" She proudly confides. After a period of reflection to mature her project, she launched the brand that develops her reputation in the Principality of Monaco first and through the online store:

www.camillaghione.com

A qualitative and responsible manufacture, 100% made in Italy. The Italian artist wants to master the entire production of her scarves. She

will search in the heart of her country for the partners who will give life to her creations: highly specialized printers on fabrics, using the latest technologies and a sewing team that carry out everything handmade, in the purest respect of tradition. Behind every CG scarf there is an art work, therefore a message. There is also a respect for the environment that the artist insists on "I pay a lot of attention to preserve the planet on my own scale. This firstly begins with the choice of natural materials – silk, cashmere and modal – to non-toxic inks and innovative printing methods that require much less water than traditional methods. The elegance and finesse of her creations seduce more and more women who find a great gift idea or to indulge one self.
